CPQA Program Guidance on COVID-19 Pandemic:

The CPQA Program is continuing to provide regular services during the emergency response period. Please note that, due to the emergency response regarding COVID-19, the CPQA has suspended all in-laboratory operations, including the shipment of proficiency testing materials for Rd 45. The situation is being monitored closely and decisions to resume regular in-laboratory operations and shipment of Rd 45 PT materials will be made accordingly.

****All other CPQA programs and services remain operational,**** including the AVR/SOP Peer Review Program, the CPQA online tutorials for Clinical Pharmacology Study Conduct and for Bioanalytical Method Validation, and the CPQASupport email mechanism.

Please contact CPQASupport@fstrf.org with any questions or concerns.
