

# Investigator Responsibilities Activity

## Quality Improvement Instructions:

Watch the video scenario, complete the following chart to determine what happened and how to improve site operations as well as documentation considerations.

Root Case	Documentation	Corrective Actions	Preventive Actions

## RACI Matrix Instructions:

Change is only implemented effectively when responsibility and communication pathways are defined. Determine what role at the site should be included in the responsibility and communication to improve site operations.

Responsible	Accountable	Consulted	Informed
