

Safety /Safety Oversight Safety Case Study

Activity Title: The Case of Participant ABC

Participant ABC has been enrolled in the 123 IND study on 27 October 2018. Participant ABC has missed several appointments to the clinic. However, eventually she returns and continues with her appointments. Upon enquiry from the study staff, the participant informs that she was physically assaulted by her partner on 01 June 2019 and as a result was hospitalised.
