\*Unless specified, the amount listed does not include the cost of the material and is the approx. freight/handling fee for orders up to 20x500ml. We recommend contacting the local subsidiary prior to placing an order to discuss freight and delivery schedules.

**Delivery time:** Please allow ~30 days for delivery to the customer due to documentation needed to export/import animal origin products. We will do everything possible to shorten this by stocking some of the reserved batch in our major warehouses (if agreeable).
